

February 14, 2011

Coach,

My name is Bryan Crawford. I am the Head Volleyball Coach at Iowa Central. Every summer I try to schedule a few volleyball clinics throughout the region to promote the game of volleyball by providing athletes a chance to work with college coaches and interact with current collegiate athletes.

Satellite clinics are a great alternative to expensive volleyball camps hosted at large universities. Having traveled extensively across the U.S. and worked camps at a number of nationally recognized volleyball powerhouse NCAA DI schools, I will bring that same level of coaching right to your school. Clinics are tailored to your specific program needs. If you have an interest in Iowa Central coming to your school to create a clinic for your team, please contact me.

Traditionally, the clinics run three days. Preferably on a Monday –Wednesday or a Thursday – Saturday schedule. Times are scheduled to fit your school/program needs. 2-Day clinics available and even a 1 day clinic can be arranged.

If you would prefer to have the college experience for your athletes, or your athletes would like to attend a volleyball camp on campus, we will be hosting a series of camps/clinics in late July and early August at Iowa Central. Please visit our website at: <http://www.iowacentral.edu/athletics/volleyball/camps.asp> for additional information and to register.

Thank you for your time. Iowa Central looks forward to working with you and your future collegiate prospects.

Sincerely,

Bryan Crawford
